

# ADC KRONE

## TrueNet® - ADC KRONE's high performance Structured Cabling Solution

### Power-over-Ethernet Solutions

Deliver power to VoIP phones, WiFi access points, and other IP devices over the local area network with ADC KRONE's IEEE 802.3af compliant Power-over-Ethernet Controller.

### Category 6 Solutions

TrueNet Category 6 patch panels, patch cords, outlets, jacks and cable are impedance matched to deliver zero bandwidth and better attenuation with zero bit errors.

### Category 5e Solutions

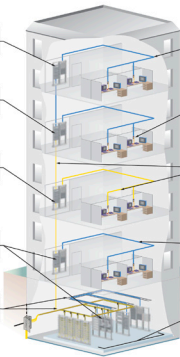

TrueNet Category 5e patch panels, patch cords, outlets, jacks and cable have an end-to-end channel optimized to preserve signal strength and deliver zero bit error performance in Gigabit Ethernet applications.

### Physical Layer Management

TrueNet PLM - a fully integrated physical layer management solution for copper and fibre enterprise networks. TrueNet PLM provides best practice service delivery with security, reliability and performance at the physical layer.

### Cable Solutions

ADC KRONE's high-performance TrueNet low smoke and PVC cables supports both backbone and horizontal applications. The complete solution embraces fully shielded (FTP) but shielded (UTP) and unshielded (UTP) systems.

### CopperTen™ (Augmented Category 6)

ADC KRONE's patent-pending CopperTen™ Solution is the world's first complete system to meet the IEEE requirements for Augmented Category 6 over 100 meters. Also available in S/TP cable.

### Work Area Solutions

ADC KRONE's high-performance Category 6e, Category 6 and CopperTen modular jacks are fast-to-install for fish, surface, and desk mounting applications.

### Fibre Solutions

In the backbone or to the desk, optical networks achieve peak performance with TrueNet fibre connectors, patch cords, sockets, and panels featuring integrated cable management and bend radius protection.

### Cable Management Solutions

Protect, route, and manage network cables for optimized signal integrity with ADC KRONE's portfolio of cable management, labelling, and testing solutions.

### Complementary Solutions

A global network infrastructure leader, ADC KRONE offers complete solutions for data centres, storage area networks, central offices, campuses, services and WiFi networks, and other high-performance applications.

TrueNet is the high-performance structured cabling solution that meets your unique network needs. Your one true network infrastructure solution, TrueNet is the integrated portfolio of industry-leading products from ADC KRONE.

Within the TrueNet portfolio we are e.g. featuring:

- Power over Ethernet Solutions
- Cat. 6 Solutions
- Physical Layer Management
- CopperTen®
- Fibre Solutions
- Cable Management Solutions

The TrueNet system delivers proven cable, connectivity and cable management solutions for fibre, 10Gig/Ethernet copper and, and Cat. 5e/6 from the Comms room/Data Centre to the desktop.

**ADC KRONE offers you:**

- Applications that run with maximum efficiency
- Global support from a company with staying power
- Professional local support
- Comprehensive warranties to cover all network designs
- No added warranty cost, simple to obtain

For all network infrastructures, where future proofed solutions are critical, ADC KRONE is your partner of choice.
